

Orford Parks and Playgrounds Committee
Minutes of the Meeting
September 16th, 2020
7:00
Orford Community Field

Present:JJ Hebb (Chair), Lawrence Hibbard, and Robb Day.

Meeting was called to order at 6:43.

JJ motioned to accept the August minutes as read, Robb seconded and all were in favor.

JJ began the meeting by discussing current projects. The flagpole light is yet to be installed and Lawrence is looking into a man lift to install the light. Robb mentioned that the cable the Committee installed at the Indian Pond Beach has been taken. He suggested putting up a clothes line instead as it would be less likely to be removed. Lawrence suggested that we map out the buried water and electrical lines at the Community Field.

The Committee looked at the northeast corner post of the storage shed at the Community Field. Lawrence noticed that it needed to be cut as it is taller than the rest causing a high corner in the roof line. Lawrence agreed to look into it and possibly repair it before winter.

JJ authorized the removal of the port-o-potty from the Community Field as the VPA does not allow bathroom facilities for the sporting events due to Covid-19. JJ apologized for any frustration as she felt it would not create any controversy. She had met with the Orford Selectboard earlier to discuss this. No decisions has been made as of yet to reinstall it. OSB suggested that we may be able to install one at the Orford Fire Department. All felt that that may be too far away. Robb suggested that we have two port-o-potties with one behind the shed for the Rivendell players and one set up for the visitors that will be cleaned before each game. JJ will reach out to Ross Convertino to see if that would be acceptable.

Meeting was adjourned at 7:27.

Minutes taken by Robb Day.
