

5/5/21

Those present: Allan Hebb and Jeff Winagle Commissioners and Bill McKee and Jane Hebb,
Acting Clerk

The minutes of the April meeting and the Annual Meeting will be read in June.

Jane reported that the delinquent customer paid their bill by 5/1/21 and the check has been deposited.

Jeff received an email from Tecca's inquiring about the water pressure on the system. Jeff has already responded that we have not had any problems with the water pressure. He will email her again tell her that we have to maintain a certain pressure in order for the water to reach all customers on the system.

On the June bill Jane will include a note saying conserve water this summer because of the drought and that they cannot water lawns or gardens. She will also include the CCR report.

Allan reported that there is no charge to join Dig Safe. You pay \$1 for each call in Orford even if it is not in our district. We have to email them a copy of the map. Allan will call them again with the following questions:

If we join who is responsible for if the water line is damaged?

If we don't join are we responsible to fix a damage line done by someone else?

Do we still have to locate the lines when there is a request to dig in the district? All the work is volunteered. If so what happens if you cannot get in touch with anyone.

Do they need a thumb drive or an email copy of the map?

We had a problem with the chlorinator this last month. Gilford Well came up twice to fix it. Dale was going to check with the company that made the chlorinator about the problem.

We received this years State grant check in the amount of \$4956.60 and Jane has deposited it.

Allan has found a touch and as soon as the weather gets better will start turning the blow off valves. He will also repair the one at the south end of the line.

The fire department requested a cover for the shut off in their driveway. They are going to redo the driveway and will put the cover on. The cost of the cover was \$72.15. It was purchased by water company funds and the fire department has reimbursed us.

Jane has all the ms forms done. 2 were signed tonight. She will now upload them to the Revenue Administration site.

The meeting adjourned at 7:26.
